

## Amodel FC Success stories – Chassis & Capsule holder for coffee machines

Material  
Amodel FC 1150 bk  
Amodel FC 1140 bkv

Driver:  
High stiffness & low creep at elevated temperatures  
Food approvals

OEM:  
Nestlé (sold under brand Krups  
Dolce Gusto)

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.

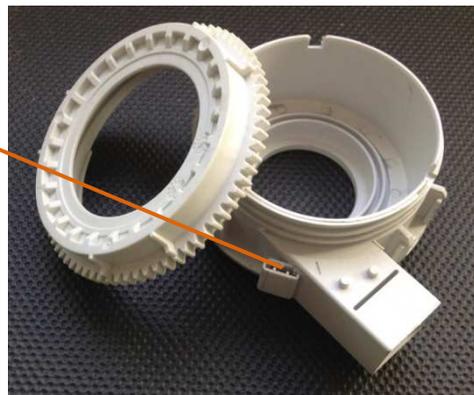

## IXEF FC Success stories – Grinder housing for coffee machines

Material  
IXEF FC 1022 NT

Driver:  
High stiffness  
Low water absorption  
Food approvals

OEM: DE-BSH

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.

## Success story: Philips Air Fryer Daily

Material  
PPA – Amodel FC 1140 L bk

Air fryer: pan,  
frame, side  
fixations

Driver:  
Temperature resistance,  
Oil and hot water resistance  
Dish washer resistance

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.

## Amodel FC: target application: Hot Water Tanks

Material: Amodel FC 1140  
STL

Driver:  
Cost reduction vs. metal  
Better thermal insulation vs.  
metal  
Low in smell and taste vs.  
conventional PPA or PPS

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.

## Success story IXEF FC: Brewing Unit for coffee machine

Brewing Unit,  
Housing IXEF FC

Material  
IXEF FC, Amodel FC,  
Ketaspire KT 880

Driver:  
Cost savings vs. metal  
Thermal insulation

OEM:  
Nespresso

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.

## Handle for single serve coffee machine

Material  
IXEF FC 1022 bk

Driver:  
Metal replacement because of  
cost reduction

OEM & molder: I-Imper

**NEVICOLOR**<sup>®</sup>  
The Thermoplastic Solution.
