

POLYBATCH® Additives

ANTI BLOCK

AB 5, AB 35 VT
ABPP 05, ABVT 19 NSC, ABVT 22 SC
F 15, F 20 N, LCC 70 W, M 65
AB PA 1938, AB PA 3013

for high transparency, thin gauge PE film
for OPP and BOPP film
for PE film
for PA film

SLIP

FSU 102 (E), FSU 105 (E)

FSU 1010 E
SAB 1982 VA

CE 502 (E), CE 505 (E)

MCE 510 IM

SPER 6

Combination of slip and antiblock for PE films
for high transparency PE films
special combination of slip and antiblock for EVA films
Slip concentrates based on Oleamide or Erucamide
Combination of slip and antiblock for Ionomers and EAA films
for OPP (cast) film

ANTI SLIP

SAS
MAS, MAS 25

for thin gauge PE film
for heavy duty bags

ANTI STATIC

VLA 55, VLA 66
VLA 77 MED
VLA 620 HT

ASB 20 G, ASPA 2446
APS 897 (DC)
ET 2006

for PE
for medical applications
amin free, for packaging of electronic components
for PP
for PS
permanent, non migrating antistaticum

ANTI FOGGING

AF 1086, AF 1088
PAF 1022 SC
AF 3 STD, AF 389

for food packaging PE films
for food packaging PP films
for agriculture applications

UV STABILISER

UVK 90, UV 1952, UVS 210
ACT 27, ACS 15, UV 320, UV 3946 DC
PC 374
BF UV 45
FPP UV 38, FPP UV 38 SP
FPP UV 2120 SP
FPP 41 PW

for PE
for agriculture applications
for PE coating applications
for HDPE
for PP, SP grade for nonwovens
for PP nonwovens
for PP - tapes

UV ABSORBER

UV 1402
UV 8590, UV 708
UV 1410, UV 810

inorganic, for hazy PE films
inorganic, for translucent PE films
organic, for transparent PE films

IR ABSORBER

IR 1515
NIR 7707

for PE greenhouse films
for NIR reflection

ANTI OXIDANT

AO 25 (S)
PAO 3360

for thermal stabilisation of PE
for thermal stabilisation of PP

EXPANDABLE

8850 E
AF 453 BF, TAB 30 PAC A

for PE, PP, PS
for cell regulation of PE foams

FLAME RETARDANT

PR 50, PR 1049 DC
CA 600 N
FRLS 1971 DC

for PE
for PE coating applications
halogenfree, for PE films

PROCESSING AIDS

AMF 702, AMF 705 HF,
AMF 902, AMF 808
AMF 3000
PAMF 905
PA AMF 105
PS AMF 2002

for LD/LLD extrusion

for HDPE bottles
for PP extrusion
for PA extrusion
for PS extrusion

MOISTURE ABSORBANT

AR 1168, AR 1170

for PE

POLYDEG® Degradable additives

OXO-DEGRADABLE

POLYDEG 555
POLYDEG 521
POLYDEG P 222

for HDPE
for LDPE
PP

PHOTO-DEGRADABLE

DEG 17, DEG 34, DEG 68

for photo-degradable PE Film

BIO-DEGRADABLE

Concentrates bases on bio-degradable polymers

POLYSTAT® Semi-conductive Compounds

Compounds based on LDPE, HDPE, PP or PS for the production of semi-conductive articles

POLYCLEAN® Cleaning Compounds

For cleaning of Polyolefines, PS and PA extrusion lines or injection moulding machines

PAPERMATCH®

Additives for the production of paperlike films

POLYPET®

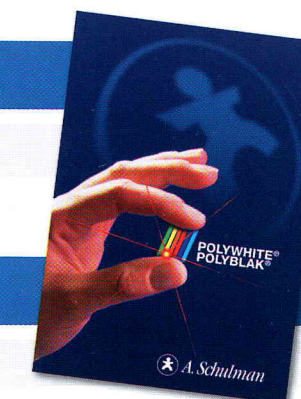

Additives and colorants for PET

POLYBLAK® Black Concentrates

Wide range of standard black masterbatches – see separate leaflet

POLYWHITE® White Concentrates

Wide range of standard white masterbatches – see separate leaflet

POLYCOLOR® Colour Concentrates

For fibre extrusion, coating applications, casings and surface protection films

POLYBATCH® Colour Concentrates

For the colouring of LDPE / LLDPE / HDPE / PP / PVC / PA / SAN / PS / ABS
